

*February 15, 2008***Notice Concerning Revisions to Dividend Forecast for the Fiscal Year Ended December 2007**

BancTec Japan, Inc. at the Board of Directors meeting held on February 15, 2008 approved a resolution as follows to revise its year-end dividend for the fiscal year ended December 2007.

We plan to submit a proposal to pay the increased dividends to the 5th Annual Meeting of Shareholders to be held on March 28, 2008.

1. Reasons for revisions to dividend forecast

Our policy is to distribute part of earnings to shareholders. In determining the dividend amount, to maximize the shareholders' value, while appropriating retained earnings for the enhancement of the management base and future business expansions, we attach importance to continuously paying stable dividends, taking also into considerations the current income, income outlook for the subsequent periods, the cash flow status, dividend payout ratio, and so on, in a comprehensive manner.

Based on this policy, given the significant improvement in earnings backed by the increased sales, we have decided to revise our year-end dividend forecast upward.

2. Details of revision
